Talenti presenta le nuove collezioni ispirate alle calde e luminose atmosfere dei paesi che si affacciano sul Mar Mediterraneo declinando influenze e gusti con l'eleganza e lo stile minimal delle migliori scuole di design italiano e internazionale.

A raccontare lo splendore non solo della nostra bella Italia ma anche di Spagna, Francia, Grecia e Nord Africa sono i colori: la luminosità abbagliante del bianco, mitigata dai toni sobri ed eleganti dell'écru e del grigio, lascia spazio alla profondità del verde, alle sfumature calde e avvolgenti della terracotta, alla meraviglia dei fiori d'amaranto, al giallo vibrante dei limoneti del Sud.

Come mutuandoli da una tavolozza impressionista, con i colori si gioca sapientemente: talvolta essi spiccano come pennellate pure e vibranti e talvolta fanno da raffinata cornice alla vera protagonista, la natura. Questa maestria, unita alla ricercatezza di materiali e finiture, darà vita a case e giardini piene di sole, mare e pura gioia.

The new collections presented by Talenti are all inspired to the warm and bright atmospheres that you can breathe in the countries lapping the Mediterranean Sea. Characterised by high-quality elegance and minimal style, they are the fruit of the best international and Italian design schools. The use of colours allows to describe not only the beauty of Italy, but also the splendour of Spain, France, Greece and North Africa: the brightness of the white, tempered by the sober and elegant tone of the écru and grey, makes way to the intensity of the green, along with the warm shades of terracotta, the charm of the amaranth flowers and the yellow vibrancy of the south lemon orchards. As in an impressionist palette, our designers have created plays of colours, sometimes pure and vibrant and sometimes coprotagonists of nature, the real star. This mastery, together with the quality and research for the materials will bring in your homes and gardens plenty of sun, sea and absolute joy.

Coralcollection

Design Marco Acerbis

Ispirata alla modularità, la collezione Coral è caratterizzata da materiali quali alluminio e corda che impreziosiscono il prodotto e ne garantiscono la qualità nel tempo. Le linee pulite e le composizioni equilibrate della collezione sono arricchite da una serie di complementi che permettono un alto livello di utilizzabilità e confort. Il tema della corda è preponderante e lo si ritrova anche come dettaglio nelle impugnature delle sedute, nel side table o nei pouf. I divani sono caratterizzati da un volume solido sulla seduta, addolcita dai cuscini decorativi, in contrasto con le sedie e le sedute lounge la cui struttura esile e raffinata introduce il tema della leggerezza.

Coral Collection is inspired by modularity and it is characterized by materials, such as aluminum and rope, that embellish the product and at the same time grant its quality in the long term. The clean lines and the balanced compositions are enriched by a series of accessories that allow a high level of usability and comfort. The theme of the rope is predominant and it is possible to find it also as detail in the handles of the seats, in the side table or in the pouf. The Sofas, that are softened by the decorative cushions, are characterized by the solid volume of the seat creating a contrast with the chairs and the lounge seats whose thin and refined structure introduces the theme of lightness instead.

Slamcollection

Design Ludovica + Roberto Palomba

Quando la semplicità e la linearità delle forme caratterizzano il progetto, nascono collezioni come la nuova Slam. Pochi elementi facilmente combinabili fra loro per dare vita ad innumerevoli interpretazioni. La struttura/telaio interamente in alluminio avvolta da un rivestimento in tessuto e unita a morbide cuscinate, caratterizza l'intera collezione per le sue linee pulite ed essenziali.

When simplicity and linearity of the shapes characterize a project, the result is a collection like the new Slam. Few elements can be easily combined to give life to several interpretations. The coated structure/frame entirely made in aluminum, enveloped by a textile coating and combined with soft cushions, connote the entire collection for the essential and clean shapes.

CleoSoft collection // Alu

Design Marco Acerbis

Filo conduttore della collezione Cleo Alu è la creazione di un prodotto giovane, dinamico, capace di coinvolgere emotivamente chi lo osserva. Una collezione nata dalla voglia di sperimentare un gioco di contrasti e di combinazioni materiche inedite: la leggerezza dell'alluminio, l'attualità delle superfici in vitre, la sorprendente eleganza dei rivestimenti tessili e una nuova cuscineria morbida di grande accoglienza e confort concorrono a creare una linea che si adatta perfettamente ad ogni stile o spazio esterno.

The leading principle of the Cleo Alu collection is the creation of a young and dynamic line, capable of emotionally involving the observer. Cleo alu collection is driven by the desire to experiment with contrasts and unprecedented combinations of materials: the lightness of the aluminium, the modernity of the vitre surfaces and the surprising elegance of the upholstery are combined with a new soft cushioning that is very welcoming and comfortable, creating a new line that perfectly suits any style or outdoor space.

Lakecollection

Design Marco Acerbis

La collezione Lake si ispira alla pianta di bamboo così sinuosa e naturalmente elegante. I moduli dei tubolari di alluminio che si connettono tra loro con dei nodi in fusione sono un richiamo alla rigida morbidezza del bamboo che alterna zone lisce a punti rigidi dalla forma ad anello. Oltre alla collezione di sedute troviamo anche il tavolo allungabile, dalle forme morbide e aggraziate, che tramite le slitte e l'allungo nascosto non solo ottempera alla sua funzione ma è anche un oggetto di seducente contemplazione.

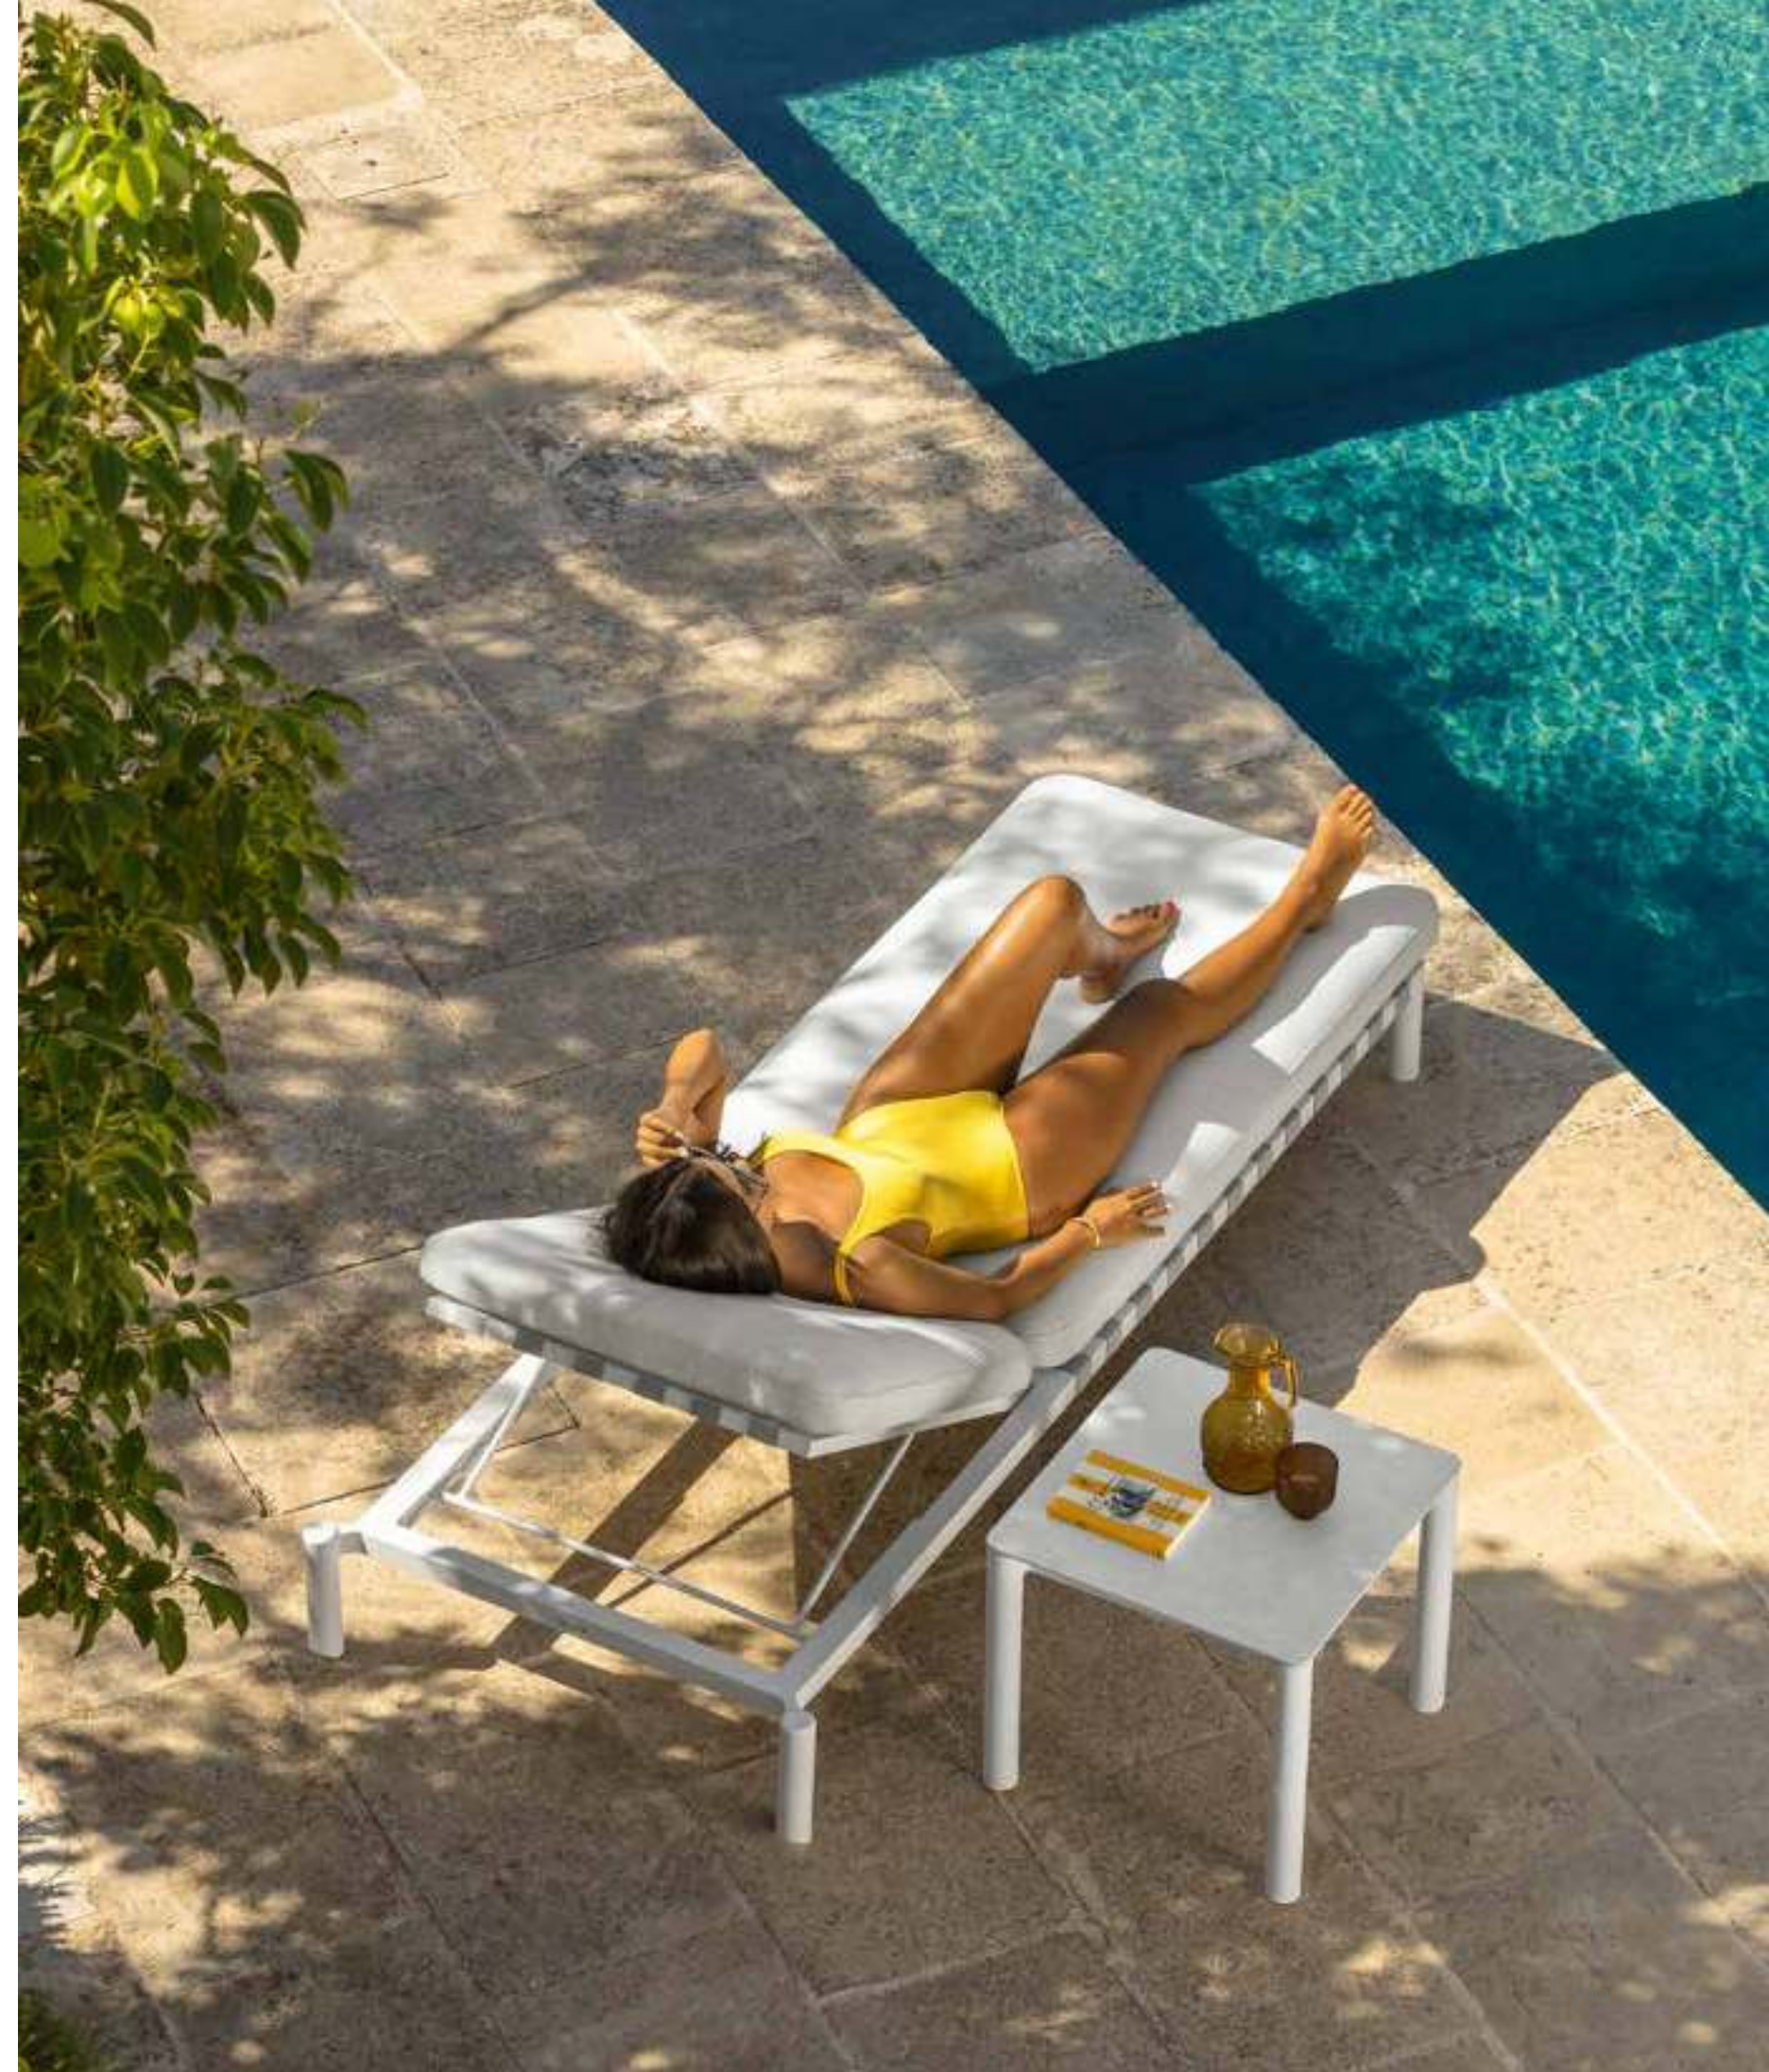

The Lake collection is inspired by the sinuous and naturally elegant bamboo plant. The aluminum structures, which connect with cast knots remind to the rigid softness of bamboo, which balances smooth areas and ring-shaped rigid points. In addition to the seating collection we also find the extending table, with its soft and graceful shapes, which through its slides and hidden extension, not only fulfils its function but is also an object of seductive contemplation.

Malècollection

Design Ludovica + Roberto Palomba

Da forme geometriche marcate, eleganti e leggere, nasce una collezione che offre il massimo comfort. La caratteristica principale della collezione Malè è la sua seduta bassa, una struttura rigida e squadrata, proprio come un guscio, realizzata in rotostampaggio, per una versatilità che si eleva grazie al rivestimento degli imbottiti. Molteplici sono i risultati possibili da poter creare grazie allo studio dei volumi e della loro modulistica, che vanno a dar vita a spazi pensati intimi e conviviale.

A new collection is born from elegant, light and marked geometric shapes and it offers maximum comfort. The main feature of the Malè collection is its low seat, a rigid and squared structure, just like a shell, made in rotomoulding, for a versatility that is elevated thanks to the upholstery of the padded furniture. There are many possible results that can be created - thanks to the study of volumes and their forms - which give life to spaces designed to be intimate and convivial.

Tweetcollection

Design Ludovica + Roberto Palomba

Nella collezione Tweet la tecnica dello stampaggio rotazionale trova un rinnovato vigore, una nuova ragion d'essere e l'outdoor si configura come luogo privilegiato del progetto. Ludovica + Roberto Palomba hanno voluto con Tweet assecondare il tema dell'accoglienza, della convivialità. Una nuova esperienza outdoor in cui potersi sentire abbracciati dalle curve degli elementi della collezione Tweet.

In the Tweet collection, the rotational moulding technique finds renewed vigour, a new raison d'être, and the outdoors is configured as a privileged place for design. With this collection Ludovica + Roberto Palomba wanted to support the theme of hospitality and conviviality. A new outdoor experience where you can feel embraced by the curves of the Tweet collection elements.

Reefcollection

Design Marco Acerbis

Il lettino prendi sole in rotazionale è un tema molto caro ai designer in quanto il materiale plastico permette di esprimersi con delle forme libere che sono tipiche della tecnologia del rotazionale. Nel caso del lettino Reef l'obiettivo del designer Marco Acerbis era quello di creare una forma comoda e pulita allo stesso tempo, senza fronzoli e che nascesse dal terreno in modo naturale. Così ha creato una seduta che ricorda le onde del mare pur avendo una stabilità ed equilibrio visivo rassicurante. Ogni curva e raccordo è stata studiata nel dettaglio in modo che il confort sia massimo. Per i più esigenti è stato inserito un cuscino che si adagia delicatamente sulla scocca della seduta ammorbidendo il prodotto.

The creation of a rotational sunbed is a theme that is particularly close to a designer as the use of plastic materials, which are typical of the rotational technology, allows the expression with free forms. In the case of the Reef sunbed, the goal of the designer Marco Acerbis was to develop a comfortable product with clean shapes, without frills, seeming to grow naturally out of the ground. He has created a seat that brings to mind the sea's waves, characterised by a reassuring stability and visual balance. Every curve has been studied in detail to ensure maximum comfort. For the most demanding clients, we have included the possibility to use a cushion that will make the product more comfortable and soft.

Panamacollection

Design Ludovica + Roberto Palomba

Nata dal desiderio di rievocare l'ondeggiare delle palme mosse dalla brezza marina e la levigatezza delle pietre modellate dall'acqua, la collezione Panama presenta sedie, lounge, sgabelli, lettini, pouf e divanetti dalle ampie forme in cui le linee delle corde intrecciate e attraversate dai raggi del sole danno vita a giochi di luci e ombre.

Panama collection arises from the designer's wish to evoke the cool sea breeze swaying the palm trees and the smoothness of the stones modeled by the water. It consists of chairs, lounge, barstools, sunbeds, poufs and sofas, whose main features are the wide shapes in which the lines of the intertwined ropes crossed by sun's rays create a magical play of lights and shadows.

Alabamacollection // Alu

Design Marco Acerbis

Il tratto sofisticato del design italiano e la nobiltà della tradizione artigiana: questa sintesi dà vita alla collezione Alabama. Un modello raffinato e contemporaneo con sedute comode e dimensioni contenute, in grado di soddisfare ogni esigenza di spazio e di stile. La struttura in alluminio, che fornisce stabilità al prodotto, si sposa con il listello in teak, dal colore caldo che rifinisce lo schienale ed i braccioli, diversi materiali per creare un'alchimia perfetta con il contesto che lo circonda.

The sophisticated line of Italian design and the nobility of the artisan tradition: this union gives life to the Alabama collection. A refined and contemporary style with comfortable seats and contained dimensions, able to satisfy every need of space and style. The aluminum structure, which provides stability to the product, is perfectly combined with the teak slat, which with its warm color refines the backseat and the armrests. Different materials to create a perfect chemistry with the surrounding context.

Design Marco Acerbis

Design, gusto e proporzioni sono elementi essenziali di questa linea. Nella collezione Alabama, il legno di iroko fa da protagonista ed è unito alla morbidezza del tessuto degli schienali e delle sedute. Uno stile fresco e minimale ma al tempo stesso ricercato, in cui materiali diversi si fondono per creare una collezione dal carattere unico e dal sapore contemporaneo.

Design, taste and proportion are essential elements of Alabama collection where iroko wood, with its ability to impart colour and warmth, plays the lead role. A collection with a minimal but refined style, where the mix and match of different materials creates a range from a unique and contemporary design.

Milocollection

Design Marco Acerbis

Eleganza romantica, attenzione ai dettagli, la collezione Milo è costruita sartorialmente come un abito. Toccare è permesso, anzi, è obbligatorio. Questo il concept intorno al quale ruota il progetto di Marco Acerbis. Il risultato finale è una famiglia di oggetti che hanno tutti un animo forte, pur inserendosi nell'arredo senza arroganza. La linea è morbida ma rigida, colorata ma con equilibrio, moderna ma senza tempo.

Romantic elegance. Attention to details. Tailored as a perfect dress. Touching is allowed, no, it is compulsory. This are some of the ideas that Marco Acerbis kept in mind while sketching this collection. The result is a very lively family of objects that have a strong character and yet do know their place without being too arrogant. It is soft yet rigid, colorful but with balance, modern but timeless.

Materials

.....
Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elavata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.

Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superci con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.

Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.

Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the ca-taphoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Natural teak

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Iroko: particolare tipo di legno dotato di numerose proprietà meccaniche, fisiche e tecnologiche: la capacità di opporsi alle sollecitazioni esterne e l'attitudine a lasciarsi lavorare nonostante la sua durezza. La particolare stabilità e la medio-alta durezza conferiscono a questo legno una buona resistenza alle deformazioni e ne garantiscono una durata nel tempo davvero eccellente.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

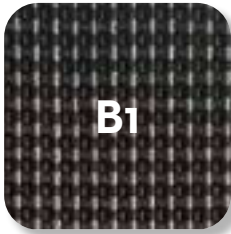

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable row material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Iroko: particular type of wood with numerous mechanical, physical and technological properties: its resistance to external stress and workability despite its hardness. The particular stability and medium-high hardness give this wood a good flexural strenght resistance to deformation and guarantee excellent durability.

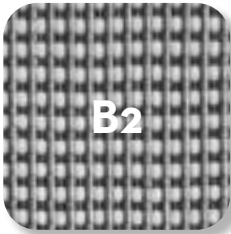

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato. Si consiglia di evitare l'utilizzo di solventi. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro ed incolori.

Il gres porcellanato, grazie alle sue eccellenti propriet  fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Tale materiale viene ottenuto tramite il processo di sintetizzazione di argille ceramiche, feldspati, caolini e sabbia.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

Porcelain stoneware, thanks to its excellent physical and flexural strenght, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. This material is obtained through the synthesis process of ceramic clays, feldspars, kaolins and sand.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt

Il poliuretano Tech è un poliuretano strutturale quindi non necessita di alcuna struttura metallica interna.
é un materiale ad alta densità (600-700 Kg/m³) che permette di realizzare qualsiasi forma, con spessori anche molto sottili.
Ha un'elevata resistenza agli urti, ben superiore a quella dei tradizionali rigidi strutturali, mantenendo comunque una gradevole elasticità in termini di comfort. Ha una buona resistenza al graffio.

Pulire le sedute in poliuretano è molto semplice, pratico e veloce.
Per prima cosa è necessario rimuovere lo sporco dalla seduta, per garantire la durata dei prodotti pulisci le superfici utilizzando solo acqua tiepida e sapone neutro.
Non utilizzare solventi aggressivi come l'acetone o detergenti a base di benzine e alcalini che possono aggredire chimicamente il materiale compromettendone estetica e integrità strutturale.

The polyurethane Tech is a structural polyurethane, therefore it does not need any inner metallic structure.
Is a high density material (600-700 Kg/m³) that enables to make any shape with very thin designs.
Tech has a high shock resistance, much higher if compared to traditional structural rigid PU, keeping at the same time a good elasticity in terms of seating comfort. It has a good resistance to scratches too.

Cleaning polyurethane seats is very simple, practical and fast.
First of all, it is necessary to remove the dirt, then you must moisten a cloth with water and with a suitable specific product that is not too aggressive. To ensure the durability of the products, clean the surfaces using only warm water and neutral soap.
Do not use aggressive solvents such as acetone or petrol and alkaline based detergents which can chemically attack the material compromising its aesthetics and structural integrity.

Il Textilene è una fibra di poliestere protetta da un rivestimento in PVC. Le fibre vengono poi legate insieme in modo da ottenere una sostanza fibrosa particolarmente solida è permanente, resistente allo stiramento ed immune da strappi.
La caratteristica più importante è la sua elasticità, offre un'eccellente resistenza alle muffe e alle macchie, e presenta un trattamento superficiale contro la degradazione UV.

Il textilene può essere pulito semplicemente con un panno di spugna con acqua saponata. Abrasivi e solventi devono essere assolutamente evitati! Si asciuga molto rapidamente a causa della loro struttura aperta.

Textilene is a polyester fiber protected by a PVC coating. The fibers are bonded together so in order to obtain a particularly solid fibrous material which is durable, resistant to stretching and wear resistant too.
The most important characteristic is its elasticity, offers excellent resistance to inhibits mold and stains, and has a surface treatment against UV degradation.

Textilene can simply be cleaned with a sponge cloth with soapy water. Abrasives and solvents must absolutely be avoided!
It dries very quickly due to their open structure.
